

Numerical Peer Evaluation

Please use this form to evaluate the contributions of each team member to the final project report. Consider attendance and participation in team meetings, individual contributions to idea generation and research, contribution for each of the subsystems (and with subsystem integration), communication within the group, willingness to work outside of regular lab/office hours, attendance in open lab hours, etc. *These evaluations are completely confidential and will never be shown to your team members. Please respond as honestly as possible.*

1. Please allocate a total of 100 percentage points among your team members, including yourself, with higher percentages going to those members who contributed most. In the case of equal contribution, points should be divided equally among team members.

	Name	% Points
Yourself	_____	_____
Member 1	_____	_____
Member 2	_____	_____
Member 3	_____	_____
	Total	100 %

2. Explain any particularly high or low allocations, providing concrete examples to illustrate your reasoning.
